

# Home Study Modules ~ Pediatric TEAM Center

1807-A East Main Street, Easley, SC 29640

(864) 442-7482

Contact: Susie F. Peden, BSN, MHSA      [susie.peden@palmettohealth.org](mailto:susie.peden@palmettohealth.org)

(One Hour Credit Each Unless Indicated)

Home Study Modules: These modules have been developed by the education coordinator at the Pediatric TEAM Center. There is a packet of information to be read by the parents and then a post test they must complete and return to the education coordinator to be corrected. If they answer at least 80% correctly they will be given a certificate for that module and one hour of educational credit. Modules are being developed frequently, and if a parent needs information on a certain topic, we will research and create a module on that topic so that they will receive credit.
